EASTERN DATES TO NOV. 23.

EASTERN STATES.

Tweed and His Fellow Thieves.

NEW YORK, Nov. 24.—The *Tribune* of this morning says an express wagon, loaded with trunks and baggage, left Tweed's house on the morning of last Thursday, and that a Deputy United States Marshal, who followed close, reported yesterday that passage had been engaged on the steamer City of Brussels for five of Tweed's family. One extra berth had been engaged which it was stated might not be used. The passenger list at the Inman Line office gives no corrective evidence, but it is possible passages may have been secured in some other form, for a family of five or six to mislead suspicion. On inquiry the officers think the removing of the baggage is explained by the fact that Tweed wished to send away all his valuables in advance, and then follow them. Tweed has not made his house a residence since the exposure of the Tammany frauds. A prominent politician, popularly supposed to be owned by Tweed, said yesterday that in forty-eight hours events would occur which would startle New York. It is probable that he knows more of Tweed's intentions than he wished to confide to others.

A new order for the arrest of Ingersoll, Garvey and Woodward was issued yesterday by Judge Larned of Albany, fixing the bail at $500,000 each.

The order extending the time for the justification of Tweed's bail is based on an affidavit made by one of his lawyers, declaring that Tweed had been advised by counsel, in good faith, that they intended to move for a reduction of his bail or vacate the order of arrest.

It is stated that Tweed has applied to the Company in which his life is insured for permission to travel beyond the seas.

The property of Garvey, which was offered for sale at a great reduction, finds no buyers, owing to the supposed insecurity of title.

Nobody doubts Tweed's intention to fly from the country. Those who were his warmest friends are dropping away from him and denounce him bitterly.

Miscellaneous New York Dispatches.

NEW YORK, Nov. 21.—The Labor Convention which has been in session at Washington decided to meet at Columbus, Ohio, on the third Wednesday in February, in connection with the National Convention, to be held there at the same time.

Col. McDaniels, owner of "Harry Bassett," replies to the owner of the English horse "Sterling" for a mile and a half race in England, in 1872, for £10,000, that he, McDaniel, can only consent to having the race take place in this country.

The will of Sarah Gray, of this city, who died last October, leaving property to the amount of about $400,000, will be contested by Sarah Stark, of California, on the ground of incapacity and undue influence.

Collector Arthur has not yet received his commission, and Murphy continues to discharge the duties of Collector.

The prevalence of small-pox here is said to be due to the fact that vaccination has been very much neglected. The Board of Health, from lack of funds, were obliged some time since to discharge the family doctors in its service.

The number of lives lost by the burning of the *City of New London* will probably reach twenty-one or twenty-two.

A large number of sailors of the Russian fleet are at Long Island Hospital under treatment for scurvy.

Origin of the Chicago Fire.

CHICAGO, Nov. 25.—The Board of Police are engaged in an investigation of the origin of the great fire. Mrs. O'Leary, who owned the cow that kicked the lamp over that set the barn on fire, was examined. She testified that she and her family were in bed when the fire broke out, but there was a shindig going on in another portion of her house, occupied by a family, and that she was told when aroused by the fire, that one of the party went out with a pail and light to procure milk for cooking oysters, and that the lamp was kicked over.

The Family Murder in Indiana.

CHICAGO, Nov. 24.—Helen and Evaline Rink, survivors of the murder of their family, in Clark county, Indiana, are still living. Evaline is improving. It is thought she will recover. Both are horribly wounded. The excitement in Clark county over this tragedy is still unallayed. Suspicions that white men were instigators are being investigated.

WASHINGTON CITY.

Retirement of Catacazy—Minister Schenck.

WASHINGTON, Nov. 24.—The management of the Russian Legation passed to-day from Catacazy to General Goleff, whose residence has been at Hartford as military attachee of the Legation. This will be very acceptable to the Executive authorities, and the change relieves the President from the unpleasant duty which Catacazy's conduct had otherwise made of sending his passport to the Minister, and may be regarded as a practical compliance with the request of this Government for his recall. It is understood that Catacazy has been ordered to wait upon the Grand Duke during his tour in this country, and to return to Russia immediately on its close.

The *Herald's* Washington dispatch states that Minister Schenck will be recalled in a very short time, and that Secretary Fish will succeed him. There seems to be nothing in law preventing a Minister from engaging in trade or speculation. Custom and dignity, however, have prohibited a Minister from assuming business or speculative positions.

Horace Greeley thinks that Schenck should not be unheard, as men so able and worthy as he are not so abundant that we can afford to crush one on a blind presumption.

BY ATLANTIC CABLE.

French Affairs.

PARIS, Nov. 24.—Thiers received the Chinese Embassy yesterday evening. The chief Embassador expressed the hope that the treaty relations between France and China would be maintained. Thiers replied: Your government must give proofs that our Missionaries and Consuls are respected, as this is absolutely necessary for the preservation of peace between France and China. The President's tone was so emphatic that the Embassadors withdrew very deeply impressed.

A large number of sympathizers of the ex-Emperor to-day made a demonstration in his honor. They traversed Faubourg St. Germaine with shouts of "*vive Napoleon*." No attempt was made by the police to interfere with them.

The Pope will not Leave Rome.

LONDON, Nov. 24.—A prominent Cardinal authorizes the statement that the Pope will not leave Rome unless he is compelled to do so by physical force or personal violence.

The "London Times" on American Politics.

LONDON, Nov. 24.—The *Times* grounds its belief in the re-election of Grant as President of the United States on the fact that he has brought about a reconciliation of the United States with England, and has effected a reduction of the National debt, and it continues in terms of the highest praise of him; declares his consent to hold the office as a benefit to the country, and expects a million and a half majority in his favor at the Presidential election.

The German Army.

BERLIN, Nov. 24.—The Commission to-day reported to the Reischrath the estimates of maintenance of the army. The estimates are calculated for the annual expenditures for the regular corps, based upon a force of 401,569 men, exclusive of officers, at about $90,535,000, and recommends an appropriation of $225 per head for the ensuing three years. Parliament has not taken action upon the subject.

A dispatch from Berlin says that the public mind there is much disturbed, in view of the diplomatic attitude assumed by Germany towards France. Bismarck privately advocates the continuance of military preparation for war. The recent action of the Reichstag, in prolonging the military budget on a war estimate, contemplates a speedy reoccupation of French Departments by the Germans. Bismarck advocates this movement for the reason that he sees that the tenure of authority by that Government is very precarious.

Gibraltar to be Ceded Back to Spain.

NEW YORK, Nov. 24.—A Madrid dispatch of to-day has the following: "The *Correspondicia* says an answer has been made to recent private inquiries that Great Britain is ready to receive favorably from Spain proposals for the restitution of Gibraltar."

MEXICO.

Insurgent Successes.

NEW YORK, Nov. 25.—Mexican news to the 12th instant says the Government troops, commanded by General Galentino, were entirely routed in Durango by the revolutionary forces under General Guerro.

CALIFORNIA.

From San Francisco.

SAN FRANCISCO, Nov. 21.—Four vessels are loading freight for Oregon. The *Sythia* sailed for England yesterday with 1,500 tons wheat. The *Rajah*, *Corrondale* and *Hindostan* are loading for the same destination.

Hine, the absconding cashier of the Great Barrington (Mass.) National Bank, whose arrest here with over $25,000 of the plunder on him was telegraphed [illegible] Massachusetts next week for trial.

Much anxiety is beginning to be felt here for the safety of the bark *Live Yankee*, now eighteen days out from Portland. Nine of the vessels running from the Sound and other ports north, report having seen nothing of her. The little flat-bottomed, stern-wheeler *Weber*, which was altered into propeller of 164 tons and christened the *Coquelle*, sailed from here for Rogue river on the 12th inst., and as she is a mere shell at best, and totally unfit for rough weather outside, great anxiety is felt to know whether she reached her destination in safety or not.

In the discussion before the Board of Supervisors concerning Dr. Holland's proposed bill for the regulation of the social evil, Drs. Cole, Hoff, Hardy, Holland and Navy Surgeon Bingham sustained the bill. Dr. Morse sent in a letter endorsing the measure, and Dr. Gibbons opposed it strongly on moral grounds.

Late last night the police raided on the different gambling hells and arrested nine dealers, who were held to bail in the sum of one thousand dollars each.

Pat. King, who has been missing since the 15th inst., was found drowned in the Bay near the Rolling Mills.

The friends of Fred. W. Loring, who was reported killed in Arizona by the Apaches, entertain no doubt of his being the person, notwithstanding the contradiction that was telegraphed.

Former rumors that the Pacific Insurance Company will be compelled to wind up its business in consequence of its losses by the Chicago fire being greater than at first reported, are quite correct.

The Fireman's Fund Insurance Company sues Lewis Coffey, John Risdon, William Ware and W. T. Garnett for foreclosing a mortgage for $25,000.

Three or four vessels are loading here for Portland. They will divide among them the cargo of the ship *Horatio Harris*, which consists of railroad iron for the Northern Pacific Railroad.

The overland train is some three hours behind time this evening on account of the heavy snows on the road.

UTAH.

Disastrous Snow Slides.

SALT LAKE, Nov. 24.—Tremendous snow slides have occurred in Little Cottonwood Canyon since Monday last. A slide yesterday, about two miles below the town of Central, occurred, and swept into eternity a man named Charles Morrison, who lived at Alta. The same slide carried off the lead horses of the mail sleigh, the sleigh upsetting and the passengers narrowly escaping. On Monday a man employed in the Ohio mine was carried away and perished. It is believed that other persons were lost in avalanches of snow this week.

ARIZONA.

Indian Savages.

LOS ANGELES, Nov. 24.—Advices from Prescott, Arizona, state that on Saturday last several hundred head of Government cattle were attacked by Indians at Chino Valley and captured. About one hundred savages are making cattle raids in and around the valley. A party are out from Prescott in pursuit. There are reports of Indian outrages from all parts of the Territory.

The Arizona *Miner*, at Prescott, just received, under date of November 18th, gives full particulars of the pursuit of the savages engaged in the Wickenburg stage massacre. The Indians are probably about fifty in number, twenty of whom have horses. The trail was followed until the party was well satisfied that the Indians were from Date Creek Reservation. Accounts from Camp Date show that on the 4th, 5th and 6th a large number of Indians were absent from the Reservation. Some sixty men were organized and armed at Prescott with the intention of taking vengeance by killing all on the Reservation, but finally decided to leave the matter for General Crook to investigate.

They were overburdened with gold, the weight of which rendered their efforts to swim unavailable.

A BEAUTIFUL THOUGHT.—God knows what keys in the human soul to touch, in order to draw out its sweetest and most perfect harmonies. They may be the minor strains of sadness and sorrow; they may be the loftier notes of joy and gladness. God knows where the melodies of nature are, and what discipline will bring them forth. Some, with plaintive tongues, must walk in the lowly vales of life's weary day; others, in loftier hymns, sing of nothing but joy as they tread the mountain tops of life; but they all unite without discord or jar as the ascending anthem of loving and believing hearts finds its way into the chorus of the redeemed heaven.

AN OLD MERCHANT'S WORD.—Hon. Peter C. Brooke, of Boston, who left one of the largest fortunes ever amassed in this country, on being asked what rule he would recommend to a young man as most likely to secure success, answered, "Let him mind his own business;" and to a similar inquiry, it has been said that Robert Lennox of New York, well remembered as one of the most distinguished merchants ever known in that city, one answered:—"Let him be beforehand with his business." One answer seems to include the other, as no man can be beforehand with his business unless he minds it.

A Kansas Supreme Court Decision.

Among the decisions of the higher courts of the different States, we sometimes come across bits of pleasantry that afford striking contrasts to the surrounding mass of dry judicial disquisition. In looking over the Kansas reports we find a decision of Chief Justice Crozier which is decidedly spicy. The following is an extract:

In this case the irrepressible statute of limitations is again presented for consideration. For some years past, upon the deposition of each succeeding case involving a construction of this statute, it was considered by bench and bar that fiction itself could scarcely conceive of a new question to arise thereunder, but as term after term rolls around there are presented new questions comparing favorably in point of numbers with Falstaff's men in Buckram; thus adding to the legions that have gone before, and new demonstrations of the propriety and verity of the adage that "truth is stranger than fiction." With the heat of 98 degrees, Fahrenheit in the shade, and the newspapers teeming with reports of the great common enemy, who, the more effectually to accomplish his double purpose of capturing the imprudent and frightening the timid, has assumed the form of the Asiatic monster, it might be supposed by the unthinking that the consideration of such question would be entered upon rather reluctantly. But beg to disabuse the public mind of any such heresy. Cases might be imagined where "smashes" would not stimulate nor "cobblers" quicken, nor "julips" invigorate; but a new question under our statute of limitations, in coolness and restoring power, so far exceeds any and all of these that when one is presented, the "fine auld Irish gentleman's" resurrection under the circumstances detailed in the song, becomes as palpable a reality as the "Topeka constitution or the territorial capital at Minnesla." The powers of a galvanic battery upon the vital energies are wholly incomparable to it. So the consideration of this case, upon this day of wilted collars and oily butter, should not entitle the Court to many eulogies for extraordinary energy in the fulfillment of its duties." [Searle and others vs. Adams; Banks' Kansas Reports, vol. 3.]

THE TERRITORIES.

The Lottery Bill in Washington Territory has been killed in the Territorial Council. Very good. [illegible] branch of the Washington Territory Legislature. The Vancouver *Register* doesn't like it.

The Vancouver *Register* regards the proposition of the Olympia press to nominate Gen. Sprague for Delegate to Congress, as an insult to the voters and intelligence of Washington Territory. It adds: "If these newspapers imagine they can command the suffrages of free citizens for the carpet-bag candidate of a huge monopoly, they will find out their mistake one of these fine mornings." We thought that talk about "Carpet-baggers" had about spent itself, and that a new-comer might be allowed to possess as much integrity, ability and character as an "old settler."

Still Another Remarkable Cure.

A PATIENT GAINS [illegible] POUNDS AND RECOVERS HIS HEALTH IN FOUR WEEKS UNDER THE TREATMENT OF DR. ABORN.

This is to certify that I have been afflicted for three years, and that I kept declining slowly until the latter part of last May, when I was taken down suddenly, since which time, as before, I could get no relief. My disease baffled the skill of every attempt, and only left me weaker, until death would have been a relief at many times. Four weeks ago to-night I placed myself under the care of Dr. Aborn, whose treatment gave me immediate relief, and I continued to gain so rapidly until now, after using his medicine only four weeks, I have gained fifteen and one-half pounds, and feel like a new man.

ANOTHER [illegible] CURE OF CHRONIC DISEASE OF THE THROAT, LUNGS & HEART.

I wish to say to the public that I have been troubled with a disease in my chest, lungs and heart, for the last five years, and have been treated by doctors in San Francisco and Oregon, but found no such relief as I have found since I commenced taking Dr. Aborn's medicine, which has only been about four weeks, and I have gained nine pounds in four, I feel almost like a new man. I commenced improving from the very first day, and have continued to improve ever since. Furthermore, I would say, that the Doctor's treatment is entirely different from any that I had ever taken before. I would say to all that are afflicted to give the Doctor a call, as they will find his charges reasonable and his medicines magical in their effects.

MORE WONDERFUL CURES OF DISEASES OF THE EYE.

Portland, Oregon, Oct. 21st, 1871.

I have been very bad with sore eyes; they were highly inflamed, so that I could see nothing out of the left eye. I had been in the army, and was under the care of a military doctor for three months and he could do nothing for me; finally I got discharged on account of my eyes. I then came to Portland, and I heard of the good reputation Doctor Aborn had in Portland, and I went under his treatment for three weeks, and now, thank God, I am cured and able to resume business. I had suffered considerably before I went under his treatment.

I have resided in the Umpqua Valley, Douglas county, Oregon, for about twenty years.

The Daily Oregonian.

MONDAY MORNING, NOV. 27, 1871.

A "Suitable Apology."

The other day the following item appeared in the OREGONIAN:

> We have a statement that Miller, Grover & Co. sold valuable land to Rev. A. Myers for the machine works at Salem, and then lent Mr. Myers school money to pay themselves.

Mr. Myers wants the public to know that this statement is without foundation, and perhaps we cannot in any other way so well let the public know this as by printing in full a letter which he has sent us. We therefore give this letter, and as the writer deems the matter one of great importance we are particular not to meddle in any way with the phraseology or orthography of the composition:

SALEM, Nov. 25, 1871.

To the Editor of the Oregonian:

Sir. Your paper the Oregonian of Nov. 24 contains a libious and slanderous statement in reference to transactions betwen myself & "Miller Grover & Co" as you state. which I pronounce fals & libious in every particular. And demand of you as public denial of the statement as you have seen fit to publish.

And further more if it is not done and a suitable appology off-d and the name of the informant given me I will see what virtue there is in Law.

In the first place Miller Grover & Co have not sold me a particle of property. In the second place Miller Grover & Co have not loaned me a cent or any other sum of school money.

The wholl statement is fals and libelous.

If you have flaws to pick & political points to make with your political enemies, just please let my name out of any connections with them.

If the State authorities have seen fit to allow a political opponent to share in the privileges of [illegible] of commendation instead of reprehension.

If you wish to know my sentiment in reference to politicians in general I can give it to you in few words which I hope I will be able to do before many day

Hoping to receive in your issue on Monday a retractation of said Libel.

I am most truly A. MYERS.

Newspapers, of course, are liable to be imposed on by misinformation. The item objected to was received among other items in a letter from Salem, and we are ready to give the author's name whenever Mr. Myers shall see proper to call for it. We regret that a statement so erroneous should have found its way into these columns. Mr. Myers, however, places himself in an absurd position by talking of "trying what virtue there is in law." The item is in no sense libelous; for even if "Miller, Grover & Co." had sold the land to Mr. Myers and lent him money out of the school fund to pay for it, nobody questions that they had a legal right to do so. Now that we have given Mr. Myers the benefit of a denial even more public and emphatic than the original statement, we trust we have done all that we are in duty called to do.

The McKay Case.

The *Herald* attempts to give a statement of the general facts and principles set forth in Judge Deady's opinion in the case of McKay vs. Campbell, and as might be expected, succeeds in misstating some of them in a signal manner. We quote this:

> And besides it (the opinion) strikes down one of the attempted strides of power by the Federal Government, which sought, by the Fourteenth Amendment to the Constitution and that "bayonet law" in pursuance thereof, to subvert the rights of the State in reference to the elective franchise.

The author of the opinion will be surprised to learn that there is anything of this sort in that composition. No less surprising will it be to all who have read the document itself. So far from "striking down" the Fourteenth Amendment or the law to enforce the right of citizens to vote (called by the *Herald* the "bayonet law"), it substantially affirms or recognizes the validity of both. It does not question the fact that the amendments have conferred powers upon the Federal Government in respect to the elective franchise, and abridged rights respecting the same, that once belonged to the States. The simple fact decided was that McKay was not a citizen of the United States. His case therefore does not come within purview of the amendments to the Constitution and the so-called "bayonet law." Had he been a citizen the decision inevitably would have been that it was unlawful to deprive him of the elective franchise on account of color, and the penalty would have followed. Throughout the whole opinion the principles which the *Herald* says it "strikes down," are admitted and their validity is unquestioned. The optic tube through which that paper looks at all questions like this is a very crooked one, and its lenses are warped and discolored by long use in taking views of various State-rights, State-sovereignty, State-compact theories, now completely exploded and fast becoming invisible.

Danger of Another European War.

It is plain that affairs in Europe are not settled. The dispatches of to-day, which indicate a change in Germany's attitude toward France, are threatening, and all accounts show that military preparations in both countries are being carried on with all possible vigor. Germany is keeping up the sinews of war by hoarding the French indemnity, and has by this policy produced a stringency in all the European money markets. Russia is arming her entire military population with the chassepott gun, and her preparations for war are on an unprecedented scale. Austria is raising her military organization to the highest attainable point of efficiency and power, and for some time past Prussia has been making overtures for her friendship, apparently for the purpose of securing her as an ally against a probable coalition between France and Russia. Even staid and quiet England is anxiously improving her military condition. Since January last her authorities, it is stated, have been engaged in preparing an improved gun said to be the most powerful in Europe, surpassing the famed Prussian field artillery. For some time past the War Office has been issuing this improved gun at the rate of one battery a week. Improved small arms have also been prepared or purchased in immense numbers, and during the last few months 150,000 of these weapons have been issued to volunteer regiments. An immense amount of war material of all kinds is being accumulated in the arsenals of Great Britain, and the naval force of the country is being increased and strengthened in like proportion. It is now known that Russia came very near interposing in behalf of France and against Germany after the battle of Sedan. Skillful diplomacy and able management on the part of the French would have brought about an alliance with Russia at that time, which would have prevented the dismemberment of French territory. All the signs indicate that if another rupture shall take place between France and Germany, Russia will enter the lists as an ally of France, and it is even possible that Great Britain will do the same. It is evident that the probabilities of war are not considered remote, since all the powers are bringing their military forces in numbers and efficiency up to the highest war standard. In Germany provision has been made by the legislative power for maintaining a regular army of 401,569 men. The irregular forces added will raise the aggregate to more than a million. Russia at this moment has a million and a quarter of men under arms, and the military force of France, notwithstanding her recent misfortunes and her great financial difficulties, has been raised under the reorganization, till it exceeds in numbers and strength the military establishment of Napoleon at the beginning of the recent war. What do all these preparations mean?

Secretary May's Alleged Defalcations—Delinquency of the Present State Officials.

In a general article on the frauds which have been proven against the Democratic party, the *Statesman* has this paragraph:

> The move here in Oregon to disarm those fearful facts of their force will be to cry "Stop, thief," against the last Republican administration, and exaggerate whatever official defalcation may have occurred in the late accounts of the Secretary of State. We are not prepared to deny that such defalcation has been discovered, but if the State officers have really known of it for a year past they have laid themselves liable to grave suspicion of having preferred to keep the matter for use in a political campaign in preference to making an attempt to secure the State from loss. The late Secretary gave good and sufficient bond and the State need not lose a dollar by him. There is not a Republican in the State who will excuse or defend any misconduct, so the act of an official cannot affect the party, nor will the party be justly chargeable with the acts of an individual. Against any official delinquency of the kind we have to offset the career of our opponents during the time they have had power. We shall hold Democracy to its record in this State, and shall beat them by comparison of that record with that made by Republican administration. They will be held to a strict accountability and will be in every essential found wanting.

In [illegible] a Philadelphia newspaper, Vice-President Colfax points out the fact that in the worst and most wicked quarter of every city in the country, where no decent man dare let his wife or daughter walk after nightfall unattended, its denizens almost without exception give their confidence, indorsement and votes to the Democratic party, and that this has also proved an element of weakness and recoiled upon it to its disaster.

In New York and Philadelphia there is a steady increase of small-pox. For the week ending Nov. 20th the number of deaths in the last named city from this disease was one hundred and thirty-three. Its prevalence is beginning to occasion general alarm. The Eastern press remarks that small-pox has invariably been followed by a visitation of cholera, and the appearance of the last mentioned disease is expected during next summer.

Gratz Brown, of Missouri, has written a letter in which he makes a bid for Democratic support for the Presidency, intimating that he would not be averse to standing as a "Liberal Republican" candidate for that position, and receiving Democratic votes to help him to an election. Here is a chance for the "Democracy."

LIGHT AND SHADE.—In some few sad lives there comes a moment when the shadow of death passes over the soul, and does not touch the body. After that we walk along our appointed path through the world, and laugh and talk, and buy and sell, and marry and are given in marriage, may be; and those of our friends who hold our hands and wish us godspeed on our way, imagine, when they look into our eyes, that we are dead; that there is no more light in the evening sky, nor freshness in the morning dew; that in our hearts is neither hope nor fear, regret, remembrance, nor delight; only so much of the red heart-throb as keeps up the show of life nor other needs than our own—only a cold, dull patience in place of a living soul.

TESTIMONIAL.

We the undersigned having been the recipients of the services of Mrs. M. O. White in teaching the science of Music on the Pianoforte, take pleasure in giving a hearty testimonial that we have employed her in our families as a teacher of her "New Method of Instruction," and that it has proven superior to any method we have ever known. And that although the first cost may be a trifle greater than some others, we believe it to be in the aggregate much cheaper, besides being a great economy in point of time. We, therefore, take pleasure in recommending her to the patronage of all who may be desirous of obtaining a musical education, as a very superior instructor.

To those who desire to know more about it before incurring any expense, we give a cordial invitation to call at our homes and interview her pupils.

CITY.

MRS. M. M. MILLER'S LECTURE.—It could not have been expected that, with such weather prevailing as we had last evening, a large audience should turn out to hear even a lecturer of acknowledged ability and fame; much less could a new name have the right to expect such an audience. Considering this, the numbers who went to Oro Fino to hear Mrs. Miller's first effort, may be considered rather flattering to her. The attendance evidenced that the people of this city are disposed, at the very least, to give the lectress a chance. Though she is already somewhat known through her own poems—she has written several that have the real poetic ring—as well as through the recently-born fame of her husband Joaquin Miller, this was her really first appearance before the public in her own individual character. We do not think that those who are acquainted with her peculiarly sensitive, diffident and self depreciative organization of mind, will judge her fairly by her effort last evening. Her reading showed almost painfully that peculiarity. Her production, which is well written and which contains many fine passages of thought, philosophy, fancy and poetry, would have sounded vastly different and better in the hands of a self-possessed and experienced speaker, like Miss Susan B. Anthony. It did not have, perhaps, so much of prepared logic as distinguishes Miss Anthony's lectures, but it had more beauty of diction. When Mrs. Miller shall have become practiced in the things which go to the advantage of the speaker, this lecture of hers, pruned of a very few crudities, will be in her own hands, and as the same audience would judge it, quite equal to the average productions of the older and more matured lecturers of her sex. This is saying much; but we believe we are right in saying it. If Mrs. Miller feels any hesitancy in going on in this line, we beg to assure her that her fears of failure are not shared by the friends who know the quality of which she is made. Some things she has yet to learn, but courage and will and perseverance will accomplish them.

She was introduced last evening by Mrs. Duniway, and upon coming forward she opened with Hood's touchingly pathetic poem "The Bridge of Sighs." Of the matter of her lecture which followed, we shall have to content ourself with saying that the argument was chiefly an appeal for such a recognition of the rights and individuality of woman as would give her equal means with men, of meeting and overcoming the exigencies of life. She said she "did not come to stir women up to rise in mutiny, but to be patient, to study the mysteries of life, to be true to the well-being of their children, their country and their homes; to be true mothers and faithful wives." And so on through the lecture, her suggestions were temperate and her philosophy founded in sense. Instead of railing at men, she appealed rather to their honor and sense of fairness to give women the rights which would enable her to grapple with, and overcome such hard fate as might in the course of things come upon them. She expressed implicit belief in the coming of the time when women shall find the avenues to successful business or to honorable positions in the social and political world, as widely and freely open to them as now they are almost exclusively to men.

At the introduction, Mrs. Duniway had said that after the lecture she would, by request, read a poem. When Mrs. Miller had concluded Mrs. Duniway came forward and announced the poem "To a poet," by Minnie Myrtle Miller, published in the *New Northwest* last Friday. The announcement was a surprise to Mrs. Miller and she almost started up as if to protest. Mrs. Duniway proceeded however and read the poem, the audience applauding warmly at the conclusion. We shall publish this poem and the public will judge of its merits. We shall content ourself for the present by saying that the fine gold of poetry shines in it quite as palpably as in many of the passages of "The Sierras" over which the critics have been in ecstacies.

CIRCULAR TO THE SUNDAY SCHOOLS.—The following circular was received by the Young Men's Christian Association of this city:

"One of the severe losses by the Chicago fire was the destruction of the famous Illinois Street Mission, superintended by Mr. D. L. Moody. It was an undenominational school, exceedingly fruitful, one of the model Mission Schools of the world.

During the past twelve years no man has been more active in mission work than Mr. Moody. His whole time has been given to the cause. He has labored incessantly not only in his own field, but for other enterprises of the kind. His hands and his voice have ever been at the service of the Sabbath Schools everywhere. The nation owes it to him and his destitute parish to rebuild at once the building that went down in the great fire.

There will soon be fifty thousand mechanics and others in that section of the city needing gospel privileges. He must have a building. Chicago has no money. To the Sunday Schools of America we appeal! This is peculiarly a Sunday School work. Let us build without delay a Tabernacle for the people of the suffering city, and it will stand a monument of the sympathy and love of the Sunday Schools of America for Chicago in the hour of her distress.

All contributions to this end should be sent to George H. Stuart, 13 Bank street, Philadelphia, Pennsylvania.

[Signed] Henry Ward Beecher, Brooklyn; John Hall, D. D., New York; Joseph T. Duryea, D. D., Brooklyn; George H. Stuart, Philadelphia; William Reynolds, Peoria; Alexander D. Tyng, Peoria; E. D. Jones, St. Louis; E. C. Wilder, New York."

SENTENCE OF JOHN FOSTER.—The sentence of John Foster, convicted of seduction, was pronounced on Saturday afternoon, by Judge Upton, the motion for a new trial having been overruled. The *Bulletin* thus reports the remarks of Judge Upton: "You have been before this court on three or four previous occasions charged with crimes, but you have heretofore been successful in escaping conviction. I am aware that your previous life should have no influence in the sentence you are to receive for this crime, and I shall endeavor to prevent it from having any. The offense of which you have been convicted is one that is regarded by all right-minded and honorable men as second to the high crime of murder. For the momentary gratification of your baser passions you have been guilty of ruining the future of a pure and innocent girl and brought disgrace and distress upon a happy household. Language fails to adequately describe in true colors the characteristics of the crime of which you have been guilty. The judgment of the court is that you be confined in the State Prison for a period of three years, and that you be kept at hard labor during that period."

N. P. R. R. ITEMS.—The surveying party under Capt. Maxwell, has been ordered to Pend' Oreille Lake, to make surveys during the winter. Gen. Sprague, T. B. Morris and E. S. Smith, have gone to the Sound, and the Kalama *Beacon* says their visit is supposed to be connected with the location of the terminus, between Olympia and Steilacoom.

A number of surveying parties have been engaged during the last summer and fall, in the surveying of the various mountain passes in Montana.

The *Beacon* says: "The track is laid and construction trains are running on the line nearly eighteen miles, extending five miles and a half beyond Kidder's Camp, up the Cowlitz. This week a side track has been put down opposite Freeport. The material for the Toutle river bridge is being transported up the Cowlitz by steamer, and as every part of the bridge is ready to be put together, its completion is but the work of a few days."

SNOW STORM.—The earliest risers yesterday morning found the ground covered with what the poets would call a "mantle of snow;" the later risers found the "mantle" about two inches thick. We learn that at Oregon City, there was but little more than enough snow to whiten the ground, and that there was none at all above Rock Island, the storm there being one of rain only. The Dalles telegraph lines informs us that snow fell at Umatilla on Saturday; and the press despatch mentions a heavy snow which delayed the overland train some hours. It is probable the storm has extended over all the country east of the Cascade range of mountains.

THANKSGIVING SERVICES.—A union meeting of the churches will be held in the Taylor street M. E. Church at 11 o'clock A. M. on Thursday—Thanksgiving day. Rev. Mr. Weaver, pastor of the Evangelical Lutheran Church, will conduct the services. A collection will be taken for the Ladies' Relief Society.

PASSENGERS FOR CALIFORNIA.—The steamship *John L. Stephens* sailed on Saturday for San Francisco, taking the following named passengers: Thomas Kirkpatrick, Mrs. M. A. Hurd, R. S. Gage, J. M. Anderson and Mrs. Newton.

MESSAGES.—There are messages in the Western Union Telegraph office for J. B. Henly and Maggie Greenwalt.

WINTER EVENING ENTERTAINMENTS.

AN APPEAL FROM A STRANGER—"DELIVER US FROM TEMPTATION."

GENTLEMEN:—Knowing the willingness of the press to enlighten and instruct the people on all subjects, I would present one or two things for consideration. I am comparatively a stranger in the thriving and wealthy city of Portland, and but one great lack do I find in her enlightened progress—that is, the absence of places of attraction for the many who have to pass these long and gloomy winter evenings either in their hotels or lonely boarding houses. Now, this is something that at first sight it will be said "the community have nothing to do with." Let us see, whether or not. These people must have some place other than a nine by ten room, with bare walls, bare floors, and no fire, in which to pass these evenings. And if they may not stay in their boarding house where are they going? Nine times out of ten it will be to the drinking saloon, billiard hall, or gambling hell, and through these mediums to places of prostitution and moral death. First, they will go and look on; but it will not be long before they take that one first fatal glass, and the gradation is soon traversed. Now if there were places of moral and intellectual attraction open to the public many would be drawn away from these places of vice and crime. If we consider this matter in a pecuniary point of view, I think we may find that the establishment of places of public attraction will be to the credit side of the account. Nine-tenths of the crimes committed in the community are to be traced from just those places above mentioned. It costs a great deal of money to prosecute and punish these criminals; whence if they were drawn in some other direction much, very much, of this would be avoided. The *public* Library answers very little to the purpose, as it is *too expensive*, and seems to be intended only for the *fortunate few* who are able to be its members, and who are at home not subject to the temptations as are those who are perhaps divided by a continent from home and friends who would lead them aside from vice and wickedness. The *boys* of Portland seem to be the only ones to understand this thing, and so far as they can afford a place where all those who wish can find a place once in a while to pass an evening of entertainment and instruction. I have reference now to the course of lectures under the auspices of the Young Mens' (I ask pardon for calling them boys) Debating Society. I attended one. I think it was the first of the course, delivered by the Rev. Mr. Rosenburg, and which was an excellent one, and seemed to edify a large audience. Why can there not be established a course of lectures, say twice a week? I have no doubt but there can be found in Portland plenty of men able and very willing to deliver lectures from time to time through the winter, and lectures that *will bring the people out*.

Then there can be made another means of keeping men from those bad places. That is through the medium of the churches. Why will not the churches of the city make their weekly prayer meetings more attractive, and a place where people will be induced to go, and when there be instructed by earnest prayer, interesting discourses and good music. Bring out your choirs, and instead of having a dumb organ standing in one corner of the room, make it speak to and reclaim the wandering one. I have known young men to go into some of these prayer meetings, and so cold and unsympathizing were the exercises that they were on the "fidgets" all the time while there, and to swear that "they would never be caught in there again." Condescend to make your meetings attractive, and get the people in that way to attend them, and no fear that harm will come from it. A gentleman at one of them meetings the other night, deplored the meagre attendance at their service, while the beer cellars were filled. All good men must feel grieved at this state of things. Yet we cannot be surprised, for those places make it a point to attract and draw people into their respective places; and while there are no better places to go to, men who have these long evenings to pass, as I have before stated, will seek these places even though at first it is with reluctance. In other places I have seen these week day prayer meeting as numerously attended as was the Sunday service, and all because they were made instructive and entertaining. And there is no place where these *sheltering homes* are more needed than here in Portland, for the reason of the inclement season now on us. Then why not have something like these things mentioned, distributed through the week, and make them competitors for customers, in opposition to the dens of vice and crime? If this be done there is no doubt that the community will be much relieved from expense in the punishment and maintenance of criminals. My home is in one of the northern counties of New York, which has a population six times larger than has this county. And yet I think I can say with all truth, that at no term of its courts would there be *one-half* the number of criminals arraigned as at this present term now in session in this city. And why is this? Mainly because there are free circulating libraries, free lectures for the winter evenings, and her churches opened twice or three times a week—different churches, holding their meetings on separate nights—and they aim to make these weekly meetings attractive. And here I think mainly lies the great secret, why six times the population have not more than one half the criminals to punish. In the former county is one city much larger than Portland, with several towns of half the population of this city, and it is in the cities and towns where the crimes are mostly committed. There are "Social Clubs" formed here for the purpose of passing as pleasantly as may be the long evenings. But these clubs are formed by and for the amusement of those who have friends and pleasant homes. Who, then, will think of the many in this large city who are far from home and friends. Who would shelter and protect them from the many temptations to be met with in all large cities?

DISCHARGE OF THE GRAND JURY.—The Grand Jury of the Circuit Court having completed its labors, made its final report on Saturday. It had considered thirty-three charges and returned fourteen true bills. The hospital and insane asylum get favorable notices. A recommendation is made for the establishment of a self-supporting workhouse for the keeping of criminals under the grade of felons. It is also recommended that witnesses detained in jail for want of bonds, be provided with quarters apart from criminals. The remaining portions of the document are devoted to an experto statement of county finances, and the declaration that certain expenditures are unwarranted by law.

SHIPPING.—The bark *Webfoot* sailed from San Francisco, for this port on Saturday. Three or four vessels—names not given—are loading at San Francisco for Portland. Anxiety is felt at San Francisco, concerning the non arrival of the *Live Yankee*, hence from this port, and eighteen days out on Saturday.

On Friday two barks were seen off the bar, one of them supposed to be the *Rival*; the other unknown.

The tug *Hassac* is daily expected to arrive at Knappton. This is a new tow boat belonging to the Knappton milling company.

THE OREGON STYLE.—A gentleman making a sort of tour through the Wallamet valley, writes us a note in which occurs the following: "No news—eggs scarce—hotels miserable—fruit rotting on the ground—California dried peaches on the table—milk for coffee in case the cows come up in time—vegetables, in case any are left over after supplying Portland, etc.—and this is the finest agricultural country on the coast!" There is, unfortunately, too much of this style of living in Oregon.

A LIBERAL LOT OF FELLOWS.—We observe that several of the up country papers are enthusiastically in favor of an appropriation of one thousand dollars from our city treasury to pay for the printing of the "Prize Essays" on Oregon. These fellows are liberal to a fault—when their hands are in other people's pockets. Suppose we suggest that they try the appropriation business on their own account. How would your enthusiasm work, gentlemen, on that lay out.

READING OF JOAQUIN MILLER.—Prof. Plummer has been intrusted with by the author, is studying and will shortly produce in Portland, a poem by Joaquin Miller, in which there is said to be much merit and material for a display of the finer points of elocution. It is said the author was much pleased with the Professor's rendering of it "in the rough," and said he understood his own poem better than when he wrote it.

ONE OF THE SWINDLERS CONVICTED.—The jury in the case of the State vs. Ned Percy, one of the three men indicted for grand larceny committed by playing the strap game upon Houck, came into court at dark on Saturday with a verdict of guilty, after having been out about four hours. The court fixed upon Tuesday for pronouncing sentence.

JOAQUIN MILLER.—This now famous poet arrived at Portland yesterday and is stopping at the Cosmopolitan Hotel. We have not yet interviewed him, and cannot therefore speak of his intended movements.

IN MEMORIAM.

At this hour, when by the sudden demise of our well beloved brother, Joseph Levy, we bow in grief beneath the unexpected stroke which has bereft us of his presence; when we fearfully realise the uncertainty of life, and the certainty of the coming of that awful message that shall summon each in his turn to the pale realms of death; as we bow with tearful eyes by the cold and pallid remains of him whose friendship shed a ray of comfort over our respective pathways in this world; and whilst resignedly saying in the sack cloth of grief, "Thy will be done," we nevertheless feel that it is fitting and proper even in the midst of our sorrow, to place upon record a sincere though inadequate expression of the esteem and love entertained by us for him who now sleeps the sleep that knows no waking.

At a regular meeting of the Board of Officers of the Congregation Beth Israel, held this the 26th day of November, 1871, the above was unanimously adopted, and was further resolved that these proceedings be spread upon the minutes in full, a copy of the above be furnished the family of the deceased, and these proceedings be published in the local papers of this city and *Hebrew Observer* in San Francisco.

L. GOODMAN, Sec'y.

JURY DISCHARGED.—At midnight Saturday, the jury in the case of the State vs. Keithly, one of the strap gamblers, was discharged, failing to agree upon a verdict. They had been out thirty-six hours. There will be another trial, probably.

LINES DOWN.—The southern telegraph line was down yesterday somewhere beyond Yreka, and the northern line was down at Monticello. At Oakland it rained very hard all day yesterday; in the evening it was fair and chilly.

BUSINESS NOTICES.

WHERE TO GET TURKEYS.—As there are only a few days remaining in which to prepare for Thanksgiving, it will doubtless be received as a favor, if we inform the public where to get the finest, fattest and cheapest turkeys or game of any kind. The True Grounds of Confidence.

Whence comes that firm reliance, that absolute undoubting faith in the efficacy of Hostetter's Stomach Bitters as a remedy for indigestion, billious disorders, intermittent and remittent fevers, which notoriously prevails in all parts of the United States? This confidence has been growing for twenty years, and is still extending. It is not the result of credulity; it has not been engendered by any human device, but is the spontaneous and natural consequence of experience. What people see daily going on under their own eyes they cannot question. When families in unhealthy districts, that resort to this wholesome vegetable tonic as a preventive escape periodical fevers, and their immediate neighbors, who neglect that precaution, are prostrated by disease, how is it possible that the phenomenon should be without its lesson? In like manner when it is seen that obstinate cases of dyspepsia, of liver complaint, of constipation, of nervous weakness, and of general debility, yield to the operation of the famous remedy, how can even incredulity itself withhold its indorsement? Eye witnesses of the salutary effects of the bitters are to be found in every civilized settlement on this continent. Thousands upon thousands who owe their restoration to health and and strength, or their preservation from sickness to its extraordinary medical properties, are enthusiastic in its praise. The multitudes who recommend it in a neighborly way to their friends and acquaintances, as well as those who make public their estimate of its virtues, are always ready to state the reason for the faith that is in them. They have all either felt or witnessed its beneficent operations.

NEW YORK

LIFE INSURANCE COMPANY!

PURELY MUTUAL!

ASSETS.....$17,000,000!

ISSUED 9,925 POLICIES IN 1870.

Insuring Over $27,000,000!

Wm. H. BEERS, Vice President and Actuary. MORRIS FRANKLIN, President.

AMONG THE ADVANTAGES OFFERED BY THE NEW YORK LIFE INSURANCE COMPANY are:—

1st. PURE MUTUALITY, so that the *entire surplus earnings* over the actual cost of insurance is returned to the policy holders who are the only members.

2d. AGE, having been organized in 1845. It has the benefit of the experience of a quarter of a century, and members are thus guaranteed from all doubtful *experiment* in the method of conducting its business.

3d. STABILITY AND PERPETUITY shown by the accumulation of a capital of *Seventeen Millions of Dollars*, after paying all losses promptly, and returning large dividends to its members. It has now an income of over *Seven Millions of Dollars*, and the interest on its investments, with premiums on gold, &c., has been sufficient during the past two years to pay accruing losses.

4th. NON-FORFEITURE OF POLICIES. It *originated* the system of non-forfeiture of policies, and to it the public are indepted for a feature so favorable to the insured.

5th. SUICIDE does not cause a forfeiture of the policy, that being considered an evidence of insanity, and insanity the result of disease.

6th. DIVIDENDS. Its dividends are declared annually, and are available *immediately as cash in payment of premiums*. Many companies declare their premiums annually, but do not pay them till several years thereafter; others defer their declarations for two, three or four years from the time the policy commences. In this Company a party always has a dividend which can be used in the payment of the second and *all subsequent annual premiums*.

7th. ITS DIVIDEND SYSTEM is the "Contribution Plan," by which each member is charged with the exact cost of his insurance, and receives back his surplus payments. These dividends can remain with the Company, participating in its earnings, and be used at any subsequent period in the payment of premiums.

8th. LIBERALITY IN SETTLEMENT OF LOSSES. Experience has shown that cases arise where policies, although EQUITABLY claims, are not LEGALLY so. The records of this Company bear many acknowledgments from widows and relatives of deceased members of its liberality and fairness in settlements of such cases. There being no stockholders to the Company to share its profits, interests adverse to policy-holders cannot possibly arise, the Trustees simply occupying the position of arbitrators between the members, to take from one and give to another.

Pianoforte, Guitar and Organ,

RECENTLY FROM THE EAST, AND MORE RECENTLY from San Francisco, is stopping at GEO. W. HILLMAN'S, No. 203 Second Street, next to the New Congregational Church, where she would be glad to see all interested in music, and wish to learn to play in the shortest possible time. By this method a pupil sees at sight what the fingers are required to perform; giving a more thorough knowledge of harmony and thorough bass; learning to play the Piano and Organ in one-half the time of the old method. Please give her an immediate call and inquire what the method is.

At home from 3 to 4 P. M.

FINANCE AND COMMERCE.

SATURDAY EVENING, Nov. 25, 1871.

Gold in New York—110⅞.

Portland Legal Tender quotations, 89c buying, and 90½ selling.

The steamer *John L. Stephens* left this evening for San Francisco, carrying only produce.

The steamship *Ajax* is due Tuesday night. She will, with the present rise in the river, take on all of 700 tons of produce for San Francisco.

It is reported that the steamer *Montana* will be placed on this route to take the place of the *John L. Stephens*.

Private dispatches received by parties from San Francisco gives information of the suspension of the Pacific Insurance Company, of that city. Very general regret is expressed by our mercantile community at the suspension of this, the former leading insurance company on this coast. Quite a number of the leading merchants in San Francisco have not had so much confidence in the Company after the withdrawal of H. H. Bigelow, Esq. (now General Manager of the Home Mutual Fire and Marine Insurance, of California), from the general management of the Company. That such confidence was well founded the events of the past two months but too clearly proved. From all the information obtained by us in San Francisco last month we were led to believe that all the Companies doing business there w[illegible] shaping and conducting their business as to cause entire confidence to be placed in them by the mercantile community in San Francisco, and as a consequence they were insuring more in home companies than formerly.

The Hawaiian *Gazette*, of a late date, thus gathers comfort from the late disaster to the whaling fleet:

A considerable number of the wrecked men have engaged to work on plantations at reasonable rates of wages and advances, and more are, we understand, ready to engage. This supply of labor was much wanted by our planters, and it must tell on the amount of our next crop of sugar, so that viewing the interests of the whole group, even from a commercial point of view, the disaster to the whaling fleet does not fall upon us with wholly unmitigated severity. It is admitted on all hands that an extended cultivation of the soil is the soundest basis of commercial prosperity.

We are, however, very glad to learn from those who are connected with the whaling business, that in all probability a considerable fleet will be fitted out from New Bedford and other Eastern whaling ports, which will be ready for the coming season in the Arctic, and which will in all probability recruit here in the usual way. If agriculture is the soundest basis of [illegible] commerce is on the other hand is one of the greatest aids to agriculture. There is nothing antagonistic between the two; on the contrary, they are mutually dependent.

The table of produce receipts from Walla Walla, given in this morning's OREGONIAN, should have stated that the Wheat was in centals, and the Flour in quarter sacks.

The experience of this year's stringent money market would, we should think, not require such persistent urging and showing of advantages to be derived by the organization of a Savings and Loan Bank, officered by gentlemen in whose judgment, honesty and business capacity the community at large will repose confidence. Our city's commercial growth has outgrown the capital invested in our banks, and consequently our business community's wants are not met, or only partially met at the banks, and the calls for long loans the banks are unable to meet at all, unless, perhaps, a very large bonus is paid for obtaining such loans. There are many enterprises (manufacturing, etc.), which could be succ[illegible]ully engaged in, but the want of all the means for carrying them suc[illegible]fully on forbids those who are po[illegible]ed of only limited means to engaging in them. By looking at the financial standing of San Francisco, it will at once be seen that this is due more to her Savings and Loan Societies than to any other one cause, as they allow of the engaging in large enterprises by having on hand funds to make advances on the realty [illegible]d by manufacturers or manufacturers at low rates of interest, besides aiding merchants in time of extreme [illegible] by making loans on their realty, Government, State, County, City or Railroad Bonds, and also aid the banks by loaning them funds on any of the above enumerated securities.

To show the growth of the Savings and Loan Societies of San Francisco, we present the following table of comparison from the first day of July, 1867, the earnings are for the first six months of each fiscal year:

	Deposits.	Loans.	Gross Earnings.
July, 1871	$34,541,697	$32,310,571	$1,107,149
July, 1870	29,842,115	29,271,878	1,709,639
July, 1869	24,773,079	24,747,706	1,407,654
July, 1868	19,619,304	19,830,060	954,650
July, 1867	15,[illegible]	13,218,820	804,811

The above table presents a large increase within four years. The interior cities of California, seeing how great has been the advantage to San Francisco of the Savings and Loan Banks have organized three in Sacramento and one in each of the following places: San Jose, Stockton, Marysville, Oakland and Vallejo. The aggregate deposits being $5,687,219 on July 1st, 1871, against 1,989,001 July 1st, 1869. A Savings and Loan Bank established here would draw deposits not only from all portions of this State but also from Washington Territory and parts of Idaho Territory. It is not alone that the advantage of a Savings and Loan Bank would be felt in facilitating business and manufacturing enterprises, but it would also aid many in making purchases of homesteads or making improvements on homesteads by obtaining long loans on their realty, within which time they can accumulate enough to pay off the indebtedness, or if unable to pay at the time specified they can obtain another loan by paying off a portion of the first.

[illegible] dispatches from San Francisco give the following:

Three or four vessels are loading here for Portland, and will divide among them the cargo of the ship *Horatio Harris*, which consists of railroad iron for the N. P. Railroad.

TO THE UNFORTUNATE.

NEW REMEDIES, NEW REMEDIES.

Dr. Gibbon's Dispensary,

623 KEARNEY STREET, NEAR COMMERCIAL, San Francisco. Established in 185[illegible] for the treatment of Sexual [illegible] Seminal Diseases, such as [illegible]rhœa, Gleet, Stricture, Syphilis in all its forms, Seminal Weakness, Impotency, etc. Skin Diseases of [illegible] years standing) and Ulcerated [illegible] successfully treated.

DR. GIBBON has the pleasure [illegible] that he has returned from visiting the [illegible] Hospitals of Europe, and has resumed practice at [illegible] Dispensary, 623 Kearny street, corner of Commercial, San Francisco, where his old patients and those requiring his [illegible] may find him.

The Doctor has spared neither time nor money in seeking out new remedies, and has returned [illegible] facilities for the alleviation of human suffering.

Horrible Diseases.

How many thousands of persons, both male and female, are there who are suff[illegible] from the effects of [illegible] absorbed into the system [illegible] ted and disfigured faces [illegible] tions, disqualifying them for the [illegible] of the enjoyment of life. [illegible] sends suffer until death [illegible] guardians, friends, attend to [illegible] any of those horrible life-dest[illegible] they are cared for and cured before it is too late. [illegible] them immediately to Doctor Gibbon [illegible] made private diseases his especial [illegible] is certain to cure the most inve[illegible] cases without mercury or any injurious drugs. [illegible] important to those who are afflicted, or to those who are inter[illegible] in the welfare of their friends, to be careful of the many pretended doctors who infest all cities, [illegible] in curing all diseases in a few days, imposing upon the public by using the names of eminent phy[illegible] Europe and other places. Be therefore careful and make strict inquiry, or you may fall into the hands of [illegible]

Seminal Weakness.

Seminal Emissions, the consequence of self-abuse. This solitary vice, or depraved sexual indulgence, is practiced by the youth of both sexes [illegible] producing, with unerring certainty, the following train of morbid symptoms, unless combatted by scientific medical measures, viz: Sallow countenance, dark spots [illegible] the eyes, pain in the head, ringing in the ears, noise like the rustling of leaves and rattling of chariots [illegible] about the loins, weakness of the limbs [illegible] blunted intellect, loss of confidence, diffidence in approaching strangers, a dislike to form new acquaintances, a disposition to shun society, [illegible] flushes, pimples and various eruptions about the face, furred tongue, fetid breath, coughs, consumption, [illegible] and frequently insanity. If relief be not obtained, should apply immediately, either in person or by letter, and have a cure effected by his new and scientific mode of treating this disease, which never fails of effecting a quick and radical cure. Dr. G. will give One Hundred Dollars to any person who will prove satisfactorily to him that he was cured [illegible] complaint by [illegible] of the San Francisco quacks.

MARRIED MEN.

Or those who contemplate marriage, who are under any of these fearful maladies, should not [illegible] sacred responsibility resting upon them nor delay to obtain immediate relief.

DOCTOR GIBBON is responsible and will give the patient a written instrument binding himself to [illegible] trial and permanent cure or make no charge.

CURED AT HOME.

Persons at a distance may be CURED AT HOME, by addressing a letter to Dr. Gibbon, stating case, symptoms, length of time the disease has continued, and have medicines promptly forwarded, free from damage and curiosity, to any part of the country, with full and plain directions. By inclosing Ten Dollars coin in a letter through the Postoffice or through Wells, Fargo & Co., a package of medicine will be forwarded to any part of the Union.

All communications strictly confidential.

Caution to the Unfortunate.

Beware of the San Francisco [illegible] who, with bogus sworn-to certificates [illegible] some of the self-styled doc[illegible] found in the daily and weekly [illegible] of San Francisco and other places, are [illegible] and [illegible] lazy to work at their trades [illegible] makers, newspaper carriers [illegible] etc. Look over the San Francisco Directory and you will not find their Medical Institutes, but you will find their former occupations [illegible] at the Directory for 1862 and 1863. The only [illegible] to make inquiry—it will cost [illegible] and may save you many regrets; for, as [illegible] physicians in nine cases out of ten are bogus [illegible] safety is in not trusting any of them until you [illegible] and what they are. Dr. Gibbon does not [illegible] exhibiting bogus titles, certificates [illegible] letters etc. Dr. Gibbon will satisfy [illegible] call at his office of his ability to treat diseases that he proposes to cure.

FINANCE AND COMMERCE.

SATURDAY EVENING, Nov. 25, 1871.

Gold in New York—110⅞.

Portland Legal Tender quotations, 90c buying, and 90½ selling.

The steamer *John L. Stephens* left this evening for San Francisco, carrying only produce.

The steamship *Ajax* is due Tuesday night. She will, with the present rise in the river, take on all of 700 tons of produce for San Francisco.

It is reported that the steamer *Montana* will be placed on this route to take the place of the *John L. Stephens*.

Private dispatches received by parties from San Francisco give information of the suspension of the Pacific Insurance Company, of that city. Very general regret is expressed by our mercantile community at the suspension of this, the former leading insurance company on this coast. Quite a number of the leading merchants in San Francisco have not had so much confidence in the Company after the withdrawal of H. H. Bigelow, Esq. (now General Manager of the Home Mutual Fire and Marine Insurance, of California), from the general management of the Company. That such confidence was well founded the events of the past two months but too clearly proved. From all the information obtained by us in San Francisco last month we were led to believe that all the Companies doing business there were so shaping and conducting their business as to cause entire confidence to be placed in them by the mercantile community in San Francisco, and as a consequence they were insuring more in home companies than formerly.

The Hawaiian *Gazette*, of a late date, thus gathers comfort from the late disaster to the whaling fleet:

A considerable number of the wrecked men have engaged to work on plantations at reasonable rates of wages and advances, and more are, we understand, ready to engage. This supply of labor was much wanted by our planters, and it must tell on the amount of our next crop of sugar, so that viewing the interests of the whole group, even from a commercial point of view, the disaster to the whaling fleet does not fall upon us with wholly unmitigated severity. It is admitted on all hands that an extended cultivation of the soil is the soundest basis of commercial prosperity.

We are, however, very glad to learn from those who are connected with the whaling business, that in all probability a considerable fleet will be fitted out from New Bedford and other Eastern whaling ports, which will be ready for the coming season in the Arctic, and which will in all probability result here in the usual way. If agriculture is the soundest basis of [illegible] commerce on the other hand is one of the greatest aids to agriculture. There is nothing antagonistic between the two; on the contrary, they are mutually dependent.

The table of produce receipts from Walla Walla, given in this morning's OREGONIAN, should have stated that the Wheat was in centals, and the Flour in quarter sacks.

The experience of this year's stringent money market would, we should think, not require such persistent urging and showing of advantages to be derived by the organization of a Savings and Loan Bank, officered by gentlemen in whose judgment, honesty and business capacity the community at large will repose confidence. Our city's commercial growth has outgrown the capital invested in our banks, and consequently our business community's wants are not [illegible] only partially met at the banks, and the calls for long loans the banks are unable to meet at all, unless, perhaps, a very large bonus is paid for obtaining such loans. There are many enterprises (manufacturing, etc.), which could be [illegible] ally engaged in, but the want of all the means for carrying them successfully on forbids th[illegible] who are [illegible] of only limited means in engaging in them. By looking at the financial standing of San Francisco, it will at once be seen that this is due more to her Savings and Loan Societies than to any other one cause, as they allow of the engaging in large enterprises by having on hand funds to make advances on the realty [illegible] by manufacturers or manufacturers at low rates of interest, beside aiding merchants in time of extreme [illegible] by making loans on their realty, Government, State, County, City or Railroad Bonds, and also aid the banks by loaning them funds on any of the above [illegible] securities.

To show the growth of the Savings and Loan Societies of San Francisco, we present the following table of comparison from the [illegible] of July, 1867, the earnings are for the first six months of each fiscal year:

		Loans	Gross Earnings.
July, 1871	$[illegible],697	$30,310,873	$1,737,340
July, 1870	29,342,112	29,271,216	1,709,638
July, 1869	24,773,678	24,767,705	1,400,654
July, 1868	19,[illegible],824	19,230,030	964,650
July, 1867	17,[illegible]	13,216,[illegible]	694,311

The above table [illegible] a large increase within four years. The interior cities of California, seeing how great has been the advantage to San Francisco of the Savings and Loan Banks have organized three in Sacramento and one in each of the following places: San Jose, Stockton, Marysville, Oakland and Vallejo. The aggregate deposits being $6,337,319 on July 1st, 1871, against 1,959,001 July 1st, 1869. A Savings and Loan Bank established here would draw deposits not only from all portions of this State but also from Washington Territory and parts of Idaho Territory. It is not alone that the advantage of a Savings and Loan Bank would be felt in facilitating business and manufacturing enterprises, but it would also aid many in making purchases of homesteads or making improvements on homesteads by obtaining long loans on their realty, within which time they can accumulate enough to pay off the indebtedness, or if unable to pay at the time specified they can obtain another loan by paying off a portion of the first.

[illegible] dispatches from San Francisco give the following:

Three or four vessels are loading here for Portland, and will divide among them the cargo of the ship *Henrietta Harris*, which consists of railroad iron for the N. P. Railroad.
